# THE COMEDY & JUGGLING SHOW

"I AM STILL HEARING RAVE REVIEWS. THANKS FOR MAKING ME A HERO!"

Rhonda Butler, Sun Management

## The Comedy and Juggling Show

Comedy, comedy, comedy. That's what this act is all about. But John Park is no joke-telling stand-up comic. Instead, this performer uses clever juggling and visually engaging comedy routines set to music to make his audience laugh. The crowd is with John all the way—even on stage, as volunteers take part and challenge John laugh for laugh for the comedic spotlight. The performance finishes with a real showstopper: Aided by two able-bodied volunteers, John mounts a 6-foot unicycle, juggles three clubs, and, with a comic commentary running the whole time, throws the last club under his leg—the crowd goes wild! The Comedy Juggling Show pays off big: big laughs, big tricks, and a big, big finish.

# AT YOUR NEXT CORPORATE EVENT JOHN WILL:

## •Tailor the Show to Your Group with Insider Info

Before his appearance, John will quiz you on industry buzzwords, company jargon, and hot topics particular to your group. Equipped with this insider info, John ad-libs custom one-liners for big laughs amid his hilarious set pieces.

## •Turn Your People into Comedy Stars

Before the show you'll also be asked to point out well-known personalities in the audience so John will know which people to "randomly" pick as volunteers. And it will be these partners in comedy - not John - who will be getting the biggest laughs of the night. You see, long ago John discovered his audience would go wild when his volunteers occasionally one-upped him on stage. So John purposefully created routines in which his volunteers always upstaged him. The result? Stardom for the volunteer, big laughs for the crowd, and a shared experience that will be talked about for years.

## •Deliver Ultra Clean Corporate Comedy

Have you ever been burned by a comic delivering off-color material at a corporate venue? That will never happen with John. His material is ultra clean. Always has been. Always will be. Plus, John's visual brand of comedy transcends different backgrounds, geographies, and demographics. Everyone in your audience will enjoy it.
